Technology Audit Business Process Improvement Services

Ensure your reputation,
uphold on your fiduciary duty to your shareholders to exercise due skill and care. Don't leave things to chance.

Breathe easier as you read the tangible results of BetaWatch's proprietary audit — customized for you. Our digital due diligence™ always involves detailed verification work, a formal audit opinion, and both written and face-to-face verbal reports.

Team BetaWatch International measures the two elements of risk, consequence and probability, and assigns the risk metric.

digital due diligence(tm)

- ♦ Sarbanes Oxley Section 404
- ♦ software audit
- ♦ beta process cycle
- ♦ web enabled application throughput and threshold testing
- ♦ COSO workshop
- ♦ documentation
- ♦ intelligence
- ♦ benchmarking
- ♦ ISO evaluation

Ideal technology audit services for:

- ♦ Regulatory filer
- ♦ software company
- ♦ underwriter
- ♦ private equity investor
- ♦ venture capitalist
- ♦ bank
- ♦ accounting firm
- ♦ law firm

Digital due diligence™ is a risk audit business improvement process that enables corporate information management, system stability, proactive directors and stakeholder satisfaction.

Business Process Improvement Services

Establish a sustainable, long term stream of business and IT related benefits by using digital due diligence™

With BetaWatch technology audit services you drive forward without looking in the rear view mirror

By engaging BetaWatch, a company not affiliated with any of the accounting, audit, legal and technology firms, your corporation will receive a truly independent audit, and, more importantly, will be seen to be receiving an independent audit.
